RE: Draft Final Phase II RFI/RI Workplan (Bedrock) for OU 2: 903
Pad, Mound, and East Trenches; June, 1991

Dear Mr. Lockhart,

The Colorado Department of Health, Hazardous Materials and Waste Management Division (the Division), and the Environmental Protection Agency (EPA) have reviewed the above referenced document prepared by DOE and it's prime operating contractor EG&G. Based upon this review, as the Division's letter of July 22, 1991 has indicated, there remain several issues yet to be resolved. These issues have been discussed in staff level meetings on July 30 and 31, 1991 and, based on these discussions, the agencies are confident that these problems will be worked out in the near future. However, the agencies are withholding a decision on approval of this workplan until DOE and EG&G submit the revised portions of the document that remain inadequate. We reiterate a willingness on our part to accept the submittal of only the revised portions of the document.

If you have any questions regarding these matters, please call Joe Schieffelin at 331-4421 or Bill Fraser at 294-1081.

Sincerely,

Gary W. Baughman
Unit Leader, Hazardous Waste Facilities
Hazardous Materials and Waste Management Division
Colorado Department of Health

Martin Hestmark
Manager, Rocky Flats Project
U.S. Environmental Protection Agency
